

# NRT MINI INDUCTION MELTING FURNACES - 2KG

 Quick Temp Rising	 24 hours continuous working	 Electricity saving	 %100 Full load	 Technical Support
---	---	--	---	---

## PRODUCT HIGHLIGHTS

- Increased melting capacity for higher output
- Advanced melting solution for gold & silver
- Advanced IGBT technology for stable efficiency
- Integrated multi-level protection system (overvoltage, overcurrent, overheating, low water level)
- Powerful heating system for faster processing
- Low melting cost with high efficiency
- Digital control system (time, temperature & power control)

# NRT MINI INDUCTION MELTING FURNACES

## TECHNICAL SPECIFICATIONS

<b>Input Power</b>	220 V, 50–60 Hz
<b>Output Power</b>	3 kW / 5 kW
<b>Suitable Metals</b>	Gold, Silver, Brass etc.
<b>Melting Capacity</b>	2 Kg Gold
<b>Melting Time</b>	5-10 minutes
<b>Max Temperature</b>	1450 °C
<b>Water Cooling</b>	Water chiller
<b>Outline Size</b>	580 × 330 × 300 mm
<b>Net Weight</b>	28 Kg

## TOOLS WITH THE MACHINE

1 pc.  
Graphite Crucible

1 pc.  
Ceramic Crucible

1 pc.  
Crucible Tong

2 pc.  
Water pipe
