

NRT MINI INDUCTION MELTING FURNACES - 1.5KG

Quick Temp Rising

24 hours continuous working

Electricity saving

Small Volume Light Weight

Technical Support

PRODUCT HIGHLIGHTS

- Advanced melting solution for gold & silver
- Compact & space-saving design, ideal for small workshops & precision applications
- IGBT technology for stable, high-efficiency performance
- Integrated multi-level protection system (overvoltage, overcurrent, overheating, low water level)
- Rapid temperature rise with energy-saving operation
- Low melting cost with high efficiency
- Digital control system (time, temperature & power control)

NRT MINI INDUCTION MELTING FURNACES

TECHNICAL SPECIFICATIONS

Supply Voltage	220V 50/60HZ
Heating Temperature	950–1250°C
Melting Capacity	1.5 KG
Melting Time	5–7 minutes
Cooling System	Minimum 30L water
Size	26 × 45 × 34.5 cm
Net Weight	21 KG

TOOLS WITH THE MACHINE

1 pc.
Graphite Crucible

1 pc.
Ceramic Crucible

1 pc.
Crucible Tong

2 pc.
Water pipe
